

Allandale Waterfront GO Fire Alarm and Generator Tank Upgrade

Scheduled Start Date: October 04, 2026

Scheduled End Date: December 18, 2026

Working Hours: Monday to Friday, 9:00 a.m. to 3:00 p.m.

Map depicting work zone. Work area is marked in red.

What Is Happening?

As part of state of good repair maintenance work, crews working on behalf of Metrolinx will be completing work to upgrade the fire alarm and generator tank at Allandale Waterfront GO. These activities include generator and fuel tank installation, cable connections, and concrete pad replacement. This work will occur primarily during daytime hours, between 9:00 a.m. and 3:00 p.m. Overnight work will also be required between October 14 and 16 and November 9 and 20 to safely facilitate crane lifts for the generator tank. GO customers will be informed in advance of any needed rerouting or temporary customer detours at the station while these works are in progress.

What to Expect?

- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- A portion of the driveway that provides access to the station will be reduced for the duration of the work.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Approximately 2 trucks will leave the site each day to move materials overnight. In certain circumstances, trucks may need to operate during the day.

Traffic Changes

- No disruptions to traffic are anticipated.

Pedestrian Access

- Temporary sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.

Noise & Vibration

- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- Residences and businesses in the area can expect noise and vibration caused by construction equipment related to this work.

Transit Service

- There is no anticipated impact to transit services.
-

About the Project

- Critical State of Good Repair projects collectively aim to ensure the safety and reliability of Metrolinx's rail network, as well as mitigate potential service disruptions and improve on-time performance, customer satisfaction and passenger comfort. This work will extend the life-span of essential infrastructure by reducing the need for frequent maintenance intervention.
