

Concrete base construction near Eglinton Avenue West and Scarlett Road

Scheduled Start Date: October 16, 2026

Scheduled End Date: October 16, 2026

Working Hours: Friday 4:00 a.m. to 8:00 p.m.

A map of the construction area

What Is Happening?

- Crews working on behalf of Metrolinx will be preparing for an extended concrete pour near 1A, 1B, 25, 39, and 61 Richview Road.
- The work will help build the concrete base that will support the future guideway deck and transit infrastructure.
- To ensure quality and consistency, the concrete must be poured and finished as one continuous section.
- Due to the volume of concrete required, work may begin earlier than regular construction hours and continue later into the day.

What to Expect?

- Where possible, lights from equipment will be positioned away from residential homes to keep light pollution levels low.
- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Mud mats and a wheel wash system are installed to prevent debris from being tracked onto public roads.

Traffic Changes

- Minor delays may be experienced near the work zone.
- Two-way directional traffic will be maintained during the work.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.

Pedestrian Access

- Pedestrian detours may be required, with signs in place to direct pedestrians as needed.
- Clear and defined walking paths will be maintained during construction to ensure pedestrian safety.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- To minimize noise impacts on the community, noise and vibration monitoring equipment will be installed prior to construction. These devices will help to detect exceedances early to proactively conduct corrective actions as needed while crews work.

Transit Service

- There is no anticipated impact to transit services.
-

About the Project

- This project will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day. The extension of Line 5 Eglinton will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
