GO Expansion

Construction Notice

East Harbour Transit Hub Track Construction

Scheduled Start Date: October 29, 2026
Scheduled End Date: November 11, 2026
Working Hours: Monday to Friday, 7:00 p.m. to 6:00 a.m., with some weekend work possible.

A map showing the location of the work

What Is Happening?

Overnight track construction activities at the East Harbour Transit Hub project will increase along with associated noise, vibration, and dust. Tamping equipment is required to level and compact fresh ballast that will be dumped in this area causing increased vibration. These overnight tasks are critical in lead up to track installation end of November. More details to be shared closer to the Major Track Closure, November 27-30.

Information as of: October 16, 2026

METROLINX

What to Expect?

- Construction lighting may be visible from the work site.
- Where possible, lights from equipment will be positioned away from residential homes to keep light pollution levels low.
- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Approximately 25 trucks will leave the site each day to move materials overnight. In certain circumstances, trucks may need to operate during the day.

Traffic Changes

- No disruptions to traffic are anticipated.

Pedestrian Access

- All pedestrian sidewalks will remain open throughout the work.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Trucks accessing the site will be equipped with broadband backup alarms, which emit a less disruptive sound compared to traditional beeping backup alarms.

Transit Service

- There is no anticipated impact to transit services.

About the Project

- The East Harbour Transit Hub will be an interchange station connecting to the Lakeshore East and Stouffville GO lines, as well as the future Ontario Line subway. Combined with Ontario Line users, the station is expected to serve about 100,000 daily riders once complete.
- Disponible en français sur simple demande. Si cela vous intéresse, veuillez nous contacter à l'adresse courriel ci-dessous.
