What Is Happening?

As part of preparatory work for the future Stockyards Station, crews will begin removing portions of the existing noise wall along the Metrolinx right-of-way near Brickworks Lane. This work is required to facilitate future construction activities, including berm removal and station platform construction. Temporary fencing will be put in place of the removed noise wall panels. Temporary fencing will also be erected at curb level along the Metrolinx right-of-way to establish the construction work zone. Metrolinx is currently reviewing plans related to the four (4) curbside visitor parking spaces located further north along Brickworks Lane. Should any temporary parking restrictions or stall removals be required, Metrolinx will provide advance notice to property management, and vehicles parked in the affected spaces will need to be relocated prior to the restrictions taking effect.

What to Expect?

- Where possible, construction lights from equipment will be positioned away from residential homes to keep light pollution levels low.
- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Trucks leaving and entering the site will use 153 Weston Road.
- Mud mats and a wheel wash system are installed to prevent debris from being tracked onto public roads.

Traffic Changes

- No disruptions to traffic are anticipated.

Pedestrian Access

- All pedestrian sidewalks will remain open throughout the work.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- Trucks accessing the site will be equipped with broadband backup alarms, which emit a less disruptive sound compared to traditional beeping backup alarms.

Transit Service

- There is no anticipated impact to transit services.
-

About the Project

- Stockyards Station will be located on Union Street, north of St. Clair Avenue West serviced by the Union-Pearson Express. It will feature two new station buildings, bike parking, bus loop for transit connections, two pedestrian tunnels connecting the east and west platforms, and access to Gunns Road and St. Clair Ave West.
The station will be near the Stockyards District, between Bloor GO/UP Station and the future Mount Dennis GO/UP Station, with convenient connections to TTC streetcar service on St. Clair Avenue, a TTC bus loop, and direct service to Pearson International Airport.
- Disponible en français sur simple demande. Si cela vous intéresse, veuillez nous contacter à l'adresse courriel ci-dessous.
