Eglinton Crosstown West Extension

Construction Notice

Intermittent Lane Closure on Jane Street and Eglinton Avenue West

Scheduled Start Date: October 26, 2026
Scheduled End Date: November 30, 2026
Working Hours: Monday to Friday, 4:00 a.m. to 11:00 a.m.

Traffic control setup Image

What Is Happening?

Crews working on behalf of Metrolinx will unload steel materials at the northwest corner of Jane Street and Eglinton Avenue West. To support this work, intermittent closures of the curb lane on southbound Jane Street and westbound Eglinton Avenue West will be required. Traffic patterns may change temporarily as construction vehicles arrive, unload materials, and exit the work area. Motorists should expect short delays.

Information as of: October 23, 2026

METROLINX

What to Expect?

- Construction lighting may be visible from the work site.
- Trucks and construction equipment may generate dust during construction.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Trucks leaving the site will use Eglinton Avenue West .

Traffic Changes

- Westbound traffic on Eglinton Avenue West will be reduced for periods of time during the work. Signage will redirect traffic around the work zones.
- Southbound traffic on Jane Street will be reduced for the duration of the work. Signage will redirect traffic around the work zones. will be reduced for the duration of the work. Signage will redirect traffic around the work zones.
- Two-way directional traffic will be maintained during the work.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.

Pedestrian Access

- Pedestrian detours may be required, with signs in place to direct pedestrians as needed.
- Clear and defined walking paths will be maintained during construction to ensure pedestrian safety.

Noise & Vibration

- To minimize noise impacts on the community, noise and vibration monitoring equipment will be installed prior to construction. These devices will help to detect exceedances early to proactively conduct corrective actions as needed while crews work.

Transit Service

- There is no anticipated impact to transit services.

About the Project

- This project will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day. The extension of Line 5 Eglinton will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
