What Is Happening?

As part of work for the Davenport Diamond Grade Separation project, Metrolinx crews will be working along the Davenport Diamond Guideway to complete additional track maintenance activities, including the installation of railway deflector plates and other track-related work. This work will take place during a scheduled service pause of the Barrie GO rail line. Work will primarily occur during daytime hours, but some night work may be needed throughout the weekend.

Information as of: October 20, 2026

METROLINX

What to Expect?

- Construction lighting may be visible from the work site.
- Where possible, lights from equipment will be positioned away from residential homes to keep light pollution levels low.
- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.

Traffic Changes

- No disruptions to traffic are anticipated.

Pedestrian Access

- All pedestrian sidewalks will remain open throughout the work.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- Trucks accessing the site will be equipped with broadband backup alarms, which emit a less disruptive sound compared to traditional beeping backup alarms.

Transit Service

- Please visit the GO Transit website for more information about changes to your travel.

About the Project

- The Davenport Diamond refers to the intersection where the Barrie GO corridor met the CP rail tracks. It was one of the busiest train intersections in North America. The Davenport Diamond Guideway allows GO trains travel above traffic and the CP rail tracks, reducing congestion and improving service reliability.
