GO Expansion

Construction Notice

Birchmount Road Weekend Bridge Closure

Scheduled Start Date: November 27, 2026
Scheduled End Date: November 30, 2026
Working Hours: Monday to Sunday, 24 hours

Extent of the Birchmount Road closure including Mack and Milne Aves

What Is Happening?

We are replacing the Birchmount Road bridge that crosses the Lakeshore East railway corridor so that we can add an extra track and increase GO Transit services in the future. Starting at 10:00 p.m. on November 27, 2026 we will be closing the part of Birchmount Road that crosses the railway line as well as Mack and Milne Avenues on the north side and the entrance to Highview Avenue on the south side of the rail corridor, as shown on the map. Over the weekend, until 4:00 a.m. on November 30, we will demolish the eastern side of the bridge. When the road reopens traffic will use one lane in each direction on the western side, while we rebuild the eastern portion. Please note the junction of Highview Ave and Birchmount Rd will remain closed during the rebuild.

Information as of: October 30, 2026

METROLINX

What to Expect?

- Construction lighting may be visible from the work site.
- Trucks and construction equipment may generate dust during construction.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Bus route 117 will be temporarily diverted during the closure. Please see www.ttc.ca for more information.

Traffic Changes

- Birchmount Road will be closed for the duration of the work. Signage will redirect traffic around the work zones.

Pedestrian Access

- Temporary sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.

Noise & Vibration

- Residences and businesses in the area can expect noise and vibration caused by construction equipment related to this work.

Transit Service

- Please visit www.ttc.ca for more information about changes to your travel.

About the Project

- GO Expansion will bring faster, more frequent train service by delivering new transit infrastructure and operational plans that will reduce journey times, add capacity and further improve on-time performance and customer satisfaction. The goal is to create a network with the capacity to deliver service every 15 minutes or better, all-day in both directions on core routes across the GO rail network.
- There may be times when we need to reach you quickly with important or time-sensitive information about the work happening nearby. Email or phone updates are the fastest way for us to keep you informed when it matters. Visit metrolinx.com/GetUpdates to join the list.
- Disponible en français sur simple demande. Si cela vous intéresse, veuillez nous contacter à l'adresse courriel ci-dessous.
